

Citizen Lab Lisbon: Co-production, 2024 November 6

Venue: Centro Cultural de Carnide, Rua do Rio Cávado 3, 1600-702 Lisbon, Portugal

Involve is a European research project investigating the relationship between social services and trust in society. After all, good social services are a signboard for society: they show that society cares about people. One of the characteristics of a good service is the extent to which users have a say in their guidance. Voice or participation are essential.

Involve is more than just another research project. We work inclusively: researchers, NGO staff and the target group work together on the project. Co-production, co-creation are at the core of Involve.

During this conference, we want to elaborate on what co-creation is. We will give insight into our way and have it confronted with examples and practices from Portugal.

The conference will be in dialogue with all attendees, you can help co-create an inclusive way of working and research.

Conference Program

9.30 am Welcome

10 am **Opening event**
Michel Debruyne, coordinator Involve
